- Native CAN Bus support
- 2x RS232 ports
- 4x GPIO lines
- 12 to 36 V DC input

The CRD1065-CAN is a removable vehicle dock for the MDT1065 rugged tablet with native CAN Bus support. It also provides two RS232 ports, four GPIO lines, RJ45 Ethernet, USB OTG and a 12 to 36 V DC input range.

This cradle is designed for fleet telematics, diagnostics and vehicle-system integration where direct CAN connectivity is required.

**Compatible with:** Topicon MDT1065
